School

INSTRUCTIONS TO CANDIDATES

1. Answer ALL questions in Part I (1-30) and Part II (31-40).
2. Part III has three sections: A - CRE, B - IRE and C - HRE. Answer questions 41-50 in ONLY the section for which you are registered.
3. Answer 50 questions altogether. Each correct answer carries 1 mark.
4. For each question, choose only ONE answer from A, B, C and D.
5. Mark your answers on the separate answer sheet, NOT in this question paper.
6. Use an ordinary HB pencil. Completely shade the circle containing the letter you have chosen. Keep all shading inside the circle.
7. Keep the answer sheet clean and dry. Do not fold it.
8. Confirm that your name, assessment number, school and subject are correctly entered. Indicate your registered religious education section.

The examination paper consists of 10 printed pages. An answer sheet follows.

PART I: CREATIVE ARTS

1. A learner mixes the two paints shown. Which secondary colour should result?

Equal amounts of paint

- A. Purple.
- B. Green.
- C. Orange.
- D. Red.

2. At a school ceremony, learners stand respectfully while singing the Kenya National Anthem. Which value are they showing?

- A. Intolerance.
- B. Dishonesty.
- C. Selfishness.
- D. Patriotism.

3. In which game is a successful shot through a raised ring with a net called a goal?

- A. Rounders.
- B. Table tennis.
- C. Netball.
- D. Volleyball.

4. A learner has covered a paper with bright wax crayons. What should be done next when making a crayon-etching picture?

- A. Apply a dark coating before scratching the design.
- B. Scratch through the bare paper before coating it.
- C. Cut the paper into equal squares only.
- D. Wash away all the crayon colours.

5. Which action produces sound on a flute?

- A. Blowing air across or into its opening.
- B. Plucking a stretched string.
- C. Striking a skin with a stick.
- D. Shaking seeds in a container.

6. A ball is approaching a learner at chest height during a catching drill. What should the learner do?

- A. Hold both hands behind the back.
- B. Keep the arms rigid and close the eyes.
- C. Turn away before the ball arrives.
- D. Watch the ball and draw the hands back slightly on receiving it.

7. A picture is made by sticking small pieces of coloured stone closely together. Which technique is used?

- A. Modelling.
- B. Weaving.
- C. Crayon etching.
- D. Mosaic.

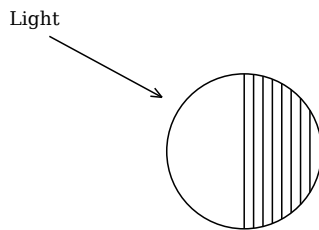

8. In a folk dance, a drummer maintains a repeated pulse. How does this help the dancers?

- A. It prevents the audience from seeing the costumes.
- B. It replaces the need for any movement.
- C. It helps them coordinate movements in time.
- D. It makes every dancer use a different speed.

9. After making paper puppets, learners find reusable offcuts on their desks. What should they do?

- A. Push all the pieces into a drain.
- B. Keep useful pieces and place the remaining waste in suitable bins.
- C. Burn everything inside the classroom.
- D. Leave the waste on the floor.

10. The drawing shows a ball lit from one side. Where should the darkest shading mainly appear?

- A. Outside the paper completely.
- B. Equally on every part of the ball.
- C. On the side facing the light only.
- D. On the side furthest from the light.

11. A song reminds learners to save water and close taps. The song mainly communicates a message about

- A. a wedding celebration.
- B. a birthday invitation.
- C. a national election result.
- D. environmental conservation.

12. Which action helps a learner land safely after a standing broad jump?

- A. Keep the knees stiff on landing.
- B. Land on both feet with knees bent.
- C. Land on one locked knee.
- D. Land on the head first.

13. A learner wants to make a red paint mixture lighter using white paint. What should the learner add?

- A. A large amount of black paint.
- B. Dry soil only.
- C. A small amount of white paint.
- D. A sharp piece of glass.

14. A choir repeats a phrase more softly. Which element of music has changed?

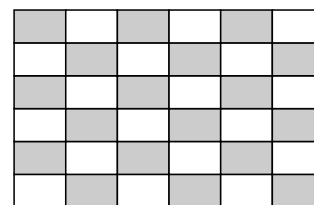

- A. Pitch.
- B. Dynamics.
- C. Timbre.
- D. Form.

15. Before a sprint, why should learners perform suitable warm-up activities?

- A. To avoid listening to instructions.
- B. To make the track slippery.
- C. To tire themselves completely.
- D. To prepare their muscles and joints for movement.

16. The pattern shows strips passing over and under one another. Which craft process does it represent?

Strips pass over and under

- A. Weaving.
- B. Carving.
- C. Etching.
- D. Casting.

17. Which French rhythm names match the pattern shown from left to right?

- A. Taa, Taa, Ta-te, Taa.
- B. Ta-te, Taa, Taa, Taa.
- C. Taa-aa, Taa, Taa, Taa.
- D. Taa, Ta-te, Taa, Taa.

18. During a crab balance, which body parts support the body while the stomach faces upwards?

- A. Both knees and the forehead.
- B. Both hands and both feet.
- C. The head and one elbow only.
- D. The stomach and chest.

19. Which preparation is most suitable before learners use dye for a craft activity?

- A. Rub dye into the eyes to test it.
- B. Put dye in drinking cups without labels.
- C. Wear protective aprons and follow the teacher's handling instructions.
- D. Taste the dye to identify its colour.

20. A plucked string sounds too low. Which adjustment generally raises its pitch?

- A. Stopping the string from vibrating completely.
- B. Loosening the string.
- C. Removing every string from the instrument.
- D. Tightening the string carefully.

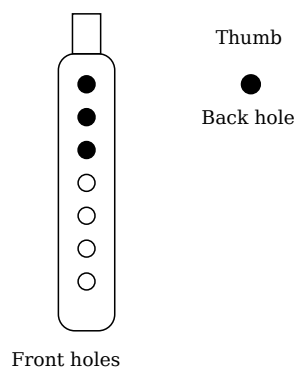

21. Which surface is most suitable for practising basic gymnastics rolls under a teacher's supervision?

- A. A concrete staircase.
- B. A floor scattered with stones.
- C. A narrow wet wall.
- D. A firm, level area covered with suitable mats.

22. A puppeteer stays behind a screen while moving a puppet above it. What is the main use of the screen?

- A. To hide the puppeteer and frame the acting space.
- B. To replace the story completely.
- C. To make all voices silent.
- D. To stop the puppet from moving.

23. The thumb hole and first three front holes of a descant recorder are closed as shown. The other front holes are open. Which note is fingered?

- A. B.
- B. G.
- C. E.
- D. A.

24. During a volleyball practice, which action is a service?

- A. Stopping the ball under a foot during a rally.
- B. Hitting the ball from the service area to begin a rally.
- C. Catching the ball and carrying it over the net.
- D. Holding the net while another player jumps.

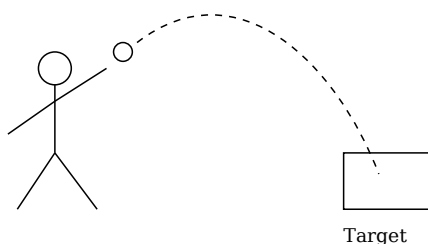

25. A learner photographs a flower but the image is blurred. Which adjustment most directly improves sharpness?

- A. Point the lens away from the flower.
- B. Move the camera rapidly during the photograph.
- C. Focus on the flower and hold the camera steady.
- D. Cover the lens with a finger.

26. Which activity best demonstrates keeping a steady beat?

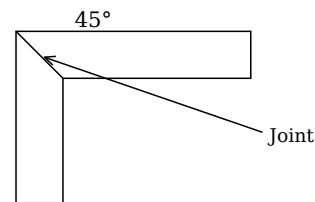

- A. Clapping once and leaving the room.
- B. Changing speed after every clap.
- C. Clapping at equal time intervals.
- D. Clapping only when someone speaks.

27. The diagram shows a throwing drill. Which action will most help the learner improve accuracy?

- A. Throw while looking away every time.
- B. Aim at the target and practise controlled throws.
- C. Change the target position during every throw.
- D. Use as much force as possible without aiming.

28. The corner of a wooden frame is joined using two 45-degree cuts as shown. What is the joint called?

- A. Lap joint.
- B. Mortise and tenon joint.
- C. Mitre joint.
- D. Butt joint.

29. A group arranges its song as verse, chorus, verse, chorus. Which musical element does this arrangement describe?

- A. Tempo.
- B. Timbre.
- C. Form.
- D. Dynamics.

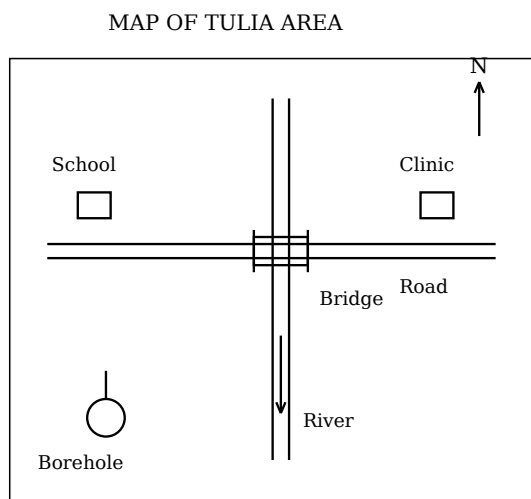

30. A learner notices a sharp piece of metal on the playing field before a match. What is the best action?

- A. Inform the teacher and have it removed safely before play.
- B. Ignore it because the ball is new.
- C. Ask players to jump over it during the match.
- D. Cover it with a thin sheet of paper and start.

PART II: SOCIAL STUDIES

Use the map for questions 31 to 33.

31. Study the map of Tulia area below. In which direction is the clinic from the school?

Key: rectangle = public building

Arrow in river shows water flow.

- A. East.
- B. South.
- C. West.
- D. North.

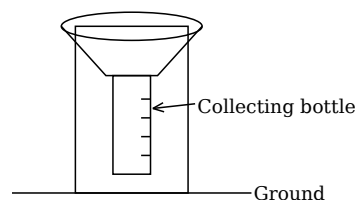

32. Use the map shown on this page. In which general direction does the river flow?

- A. West.
- B. East.
- C. North.
- D. South.

33. Use the map shown on this page. Which feature enables road users to cross the river?

- A. Borehole.
- B. Clinic.
- C. School.
- D. Bridge.

34. The diagram shows a weather instrument with a collecting bottle. Which element of weather does it measure?

- A. Air pressure.
- B. Sunshine duration.
- C. Wind direction.
- D. Rainfall.

35. Why do many people settle in areas with reliable water supplies?

- A. Water removes the need for roads.
- B. Water supports domestic use and farming.
- C. Water prevents every disease.
- D. Water makes all land equally fertile.
