School

INSTRUCTIONS TO CANDIDATES

1. Answer ALL questions in Part I (1-30) and Part II (31-40).
2. Part III has three sections: A - CRE, B - IRE and C - HRE. Answer questions 41-50 in ONLY the section for which you are registered.
3. Answer 50 questions altogether. Each correct answer carries 1 mark.
4. For each question, choose only ONE answer from A, B, C and D.
5. Mark your answers on the separate answer sheet, NOT in this question paper.
6. Use an ordinary HB pencil. Completely shade the circle containing the letter you have chosen. Keep all shading inside the circle.
7. Keep the answer sheet clean and dry. Do not fold it.
8. Confirm that your name, assessment number, school and subject are correctly entered. Indicate your registered religious education section.

The examination paper consists of 10 printed pages. An answer sheet follows.

PART I: CREATIVE ARTS

1. The two paints shown are mixed in equal amounts. Which colour is produced?

Equal amounts of paint

- A. Green.
- B. Yellow.
- C. Orange.
- D. Purple.

2. A class sings a song encouraging people from different communities to live peacefully together. Which value is mainly promoted?

- A. Unity.
- B. Greed.
- C. Dishonesty.
- D. Discrimination.

3. In which game do teams win points by sending a ball over a net and grounding it in the opponents' court?

- A. Rounders.
- B. Soccer.
- C. Volleyball.
- D. Netball.

4. A learner cuts pieces of fabric and paper, arranges them into a picture and glues them onto card. Which technique is used?

- A. Carving.
- B. Etching.
- C. Modelling.
- D. Collage.

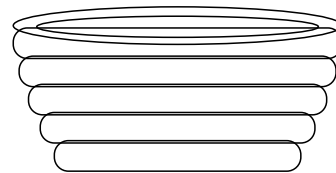

5. What vibrates to produce sound when a drum is struck?

- A. A plucked wire inside every drum.
- B. The player's shoe.
- C. The stretched membrane.
- D. The empty space outside the drum only.

6. When making a two-handed chest pass, which action best directs the ball towards a partner?

- A. Drop the ball behind both feet.
- B. Hold the ball under one foot.
- C. Turn the back to the partner before releasing.
- D. Extend the arms towards the partner and follow through.

7. The diagram shows ropes of clay placed one above another to make a container. Which method is used?

Clay ropes placed in layers

- A. Coiling.
- B. Paper folding.
- C. Weaving.
- D. Crayon etching.

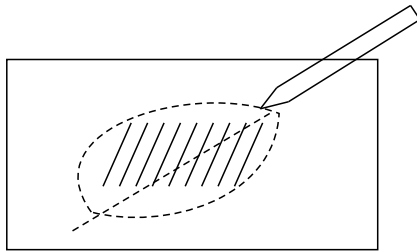

8. A learner sings a recognisable tune using notes of different pitches. Which element is most clearly demonstrated?

- A. Melody.
- B. Texture of cloth.
- C. Colour value.
- D. Shape of a puppet.

9. Which leftover material is most suitable for reuse when making another paper mask?

- A. Rotting food scraps.
- B. Clean pieces of strong card.
- C. Broken glass fragments.
- D. A leaking used battery.

10. A learner places paper over a leaf and moves the side of a pencil across it. What technique is shown?

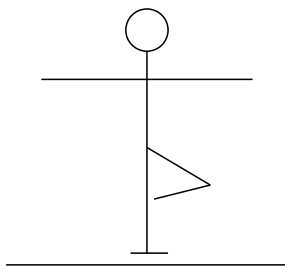

Paper over a leaf

- A. Rubbing.
- B. Casting.
- C. Stitching.
- D. Coiling.

11. A song is passed down in a community and is performed during its traditional ceremonies. What type of song is it?

- A. Folk song.
- B. An advertising jingle.
- C. A weather announcement.
- D. A spoken news bulletin.

12. The learner in the diagram is balancing. Which body part is in contact with the ground to support the body?

- A. The head.
- B. One foot.
- C. Both hands.
- D. Both knees.

13. A painter gradually adds black paint to blue paint. What happens to the value of the blue?

- A. It becomes lighter.
- B. It becomes darker.
- C. It changes into a primary yellow.
- D. It becomes transparent water only.

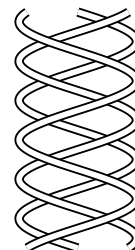

14. A drummer plays the same pattern first slowly and then quickly. Which element changes?

- A. Stage scenery.
- B. Costume.
- C. Colour.
- D. Tempo.

15. Before practising a relay exchange, which action best helps two learners work together?

- A. Agree on a clear signal and practise the exchange.
- B. Push the partner away during the exchange.
- C. Run without knowing who will receive the baton.
- D. Hide the baton from the partner.

16. Three strands are repeatedly crossed to make a band as shown. Which technique is used?

Three interlaced strands

- A. Carving.
- B. Printing.
- C. Coiling clay.
- D. Plaiting.

17. Which French rhythm names match the pattern shown?

- A. Ta-te, Taa, Taa-aa.
- B. Taa-aa, Taa, Ta-te.
- C. Taa, Taa-aa, Ta-te.
- D. Taa-aa, Ta-te, Taa.

18. A learner begins to lose balance while standing with feet very close together. Which change can provide a wider base of support?

- A. Lean far outside the supporting area.
- B. Close the eyes immediately.
- C. Stand on the toes of one foot only.
- D. Move the feet slightly further apart.

19. How should scissors be passed to another learner?

- A. Throw them across the table.
- B. Leave them open on a chair.
- C. Offer the handles while holding the closed blades carefully.
- D. Offer the open blade points first.

20. After using a wooden string instrument, how should learners care for it?

- A. Put it beside a strong open flame.
- B. Keep it dry and protected from knocks.
- C. Use it to lift heavy furniture.
- D. Leave it outside in heavy rain.

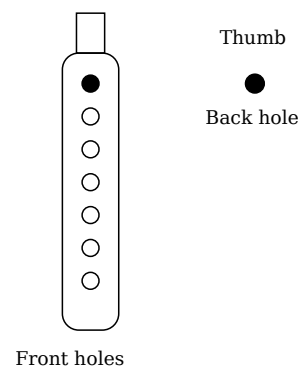

21. During a gymnastics lesson, which behaviour best supports safe practice?

- A. Move the mats while another learner is landing.
- B. Start a difficult movement in a crowded doorway.
- C. Wait for the teacher's instruction and use the designated space.
- D. Push a classmate during a balance.

22. In a puppet story, a character is frightened. Which voice would best communicate the character's feeling?

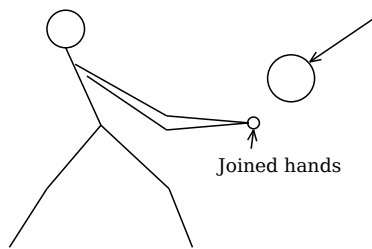

- A. A flat announcement of the lunch menu.
- B. A cheerful voice celebrating a victory.
- C. A hesitant, trembling voice.
- D. A relaxed laugh throughout every word.

23. The thumb hole and first front hole of a descant recorder are closed. The other front holes are open, as shown. Which note is fingered?

- A. B.
- B. E.
- C. G.
- D. A.

24. The player joins the hands and presents the forearms to the incoming ball as shown. Which volleyball skill is being practised?

- A. Service.
- B. Forearm pass.
- C. Spike.
- D. Overhead set.

25. A photograph of a craft item has a cluttered background that distracts attention. What should the learner do?

- A. Choose a simple background and frame the item clearly.
- B. Hide the item behind several bags.
- C. Cover the camera lens completely.
- D. Move the item outside the picture.

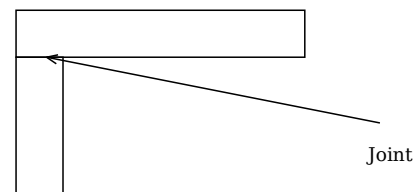

26. What should a performer do when a rest occurs in a rhythmic pattern?

- A. Change every note to the same pitch.
- B. Ignore the timing and stop permanently.
- C. Remain silent for the indicated duration.
- D. Sing every note more loudly.

27. During a game, a learner knows that the ball touched her before going out, but the referee did not see it. What best shows fair play?

- A. Insult the opposing team.
- B. Blame another player deliberately.
- C. Hide the ball to delay play.
- D. Tell the referee what happened.

28. The end of one piece of wood meets the side of another without angled cuts, as shown. What joint is this?

- A. Mortise and tenon joint.
- B. Mitre joint.
- C. Butt joint.
- D. Dovetail joint.

29. A song changes from one unaccompanied voice to several voices with instrumental accompaniment. Which element describes these layers of sound?

- A. Colour.
- B. Texture.
- C. Size.
- D. Tempo.

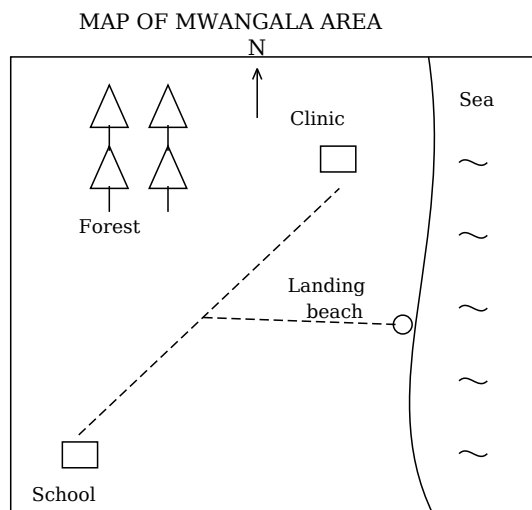

30. During a long outdoor practice in warm weather, which action should the teacher allow?

- A. Continuous activity without any breaks.
- B. Appropriate rest breaks and access to drinking water.
- C. Drinking only after everyone feels unwell.
- D. Removing every shaded resting area.

PART II: SOCIAL STUDIES

Use the map for questions 31 to 33.

31. Study the map below. In which direction is the clinic from the school?

Key: rectangles = public buildings

Dashed lines = paths; waves = sea

- A. South-west.
- B. North-west.
- C. North-east.
- D. South-east.

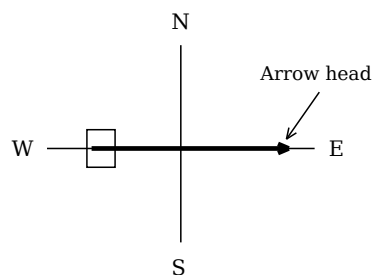

32. Use the map shown on this page. Which economic activity is most likely to take place at the landing beach?

- A. Growing wheat on a glacier.
- B. Fishing.
- C. Rearing camels inside the sea.
- D. Mining underground coal.
